Uncompromised Imaging at **FMIG**

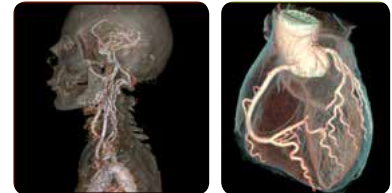

We strive to provide specialised treatment with the highest level of efficiency and quality of care in Melbourne.

## Introducing our latest addition

As part of our continuing effort to provide the best possible service for your most challenging patients, we are pleased to announce our latest technology addition:

**The Revolution CT from GE Healthcare**

# Benefits of Revolution CT

- High Definition, improved resolution, ultra-fast scanning
- Reduced motion artifacts
- Up to 82% radiation reduction
- Significantly reduces IV contrast dose
- Larger bore to accommodate all patients comfortably
- Whisper drive system gantry for much quieter scans
- Sedation free and minimal breath hold for pediatric patients
- Motion-free whole organ coverage
- Point of pain imaging

## Cardiac Imaging CTCA BENEFITS:

- One beat whole heart coverage eliminates beta blockers in most cases
- Single short breath hold

## Procedures available:

- General CT
- Cardiac CT Angiography
- Calcium Scoring
- CT Colonography
